

Fusil<sup>®</sup> K803L

## Silica Matting Agent

Fusil<sup>®</sup> K803L is a specially processed amorphous silica with a fine particle size, soft-touch and efficient matting. It can replace Grace Syloid ED-2.

## Characteristic physico-chemical data

Test Item	Unit	Value
SiO <sub>2</sub> %(dry)	%	≥99%
D50 um	um	4.5-5.5
Pore Volume	ml/g	≥1.8
Heating Loss	%	≤4.0
Ignition Loss	%	≤5.0
DBP	g/100g	≥300
Surface Treatment	/	NO

## Properties

- High-efficiency extinction, high transparency, high stability
- Basically without blue phase
- Excellent anti-settling after dilution, no hard precipitate,
- Smooth soft-touch, In perfect alignment

## Packing and storage

- Packaged in multiple layer Kraft paper, 10kg per bag
- Product more than 24 months old should be tested for moisture content before use in order to make

certain that it is still suitable for the intended application.

## Applications

- It is recommended for the extinction of the film system, once the package is opened, it is recommended to use as soon as possible to prevent moisture to be increased.
- Wood paint and furniture paint

## Safety &amp; Handling

Information concerning the safety of this product is listed in the corresponding Safety Data Sheet, which will be sent with the first delivery or upon updating. Such information is also available from Fusil, Product Safety Department, EMAIL [info@fuchangchem.com](mailto:info@fuchangchem.com) or can check from our homepage [www.fuchangchem.com](http://www.fuchangchem.com). We recommend to read carefully the safety data sheet
